## Well-Equipped Coastal Cruiser | Turn-Key Condition

This 2001 Riviera 40 Flybridge is a well-regarded Australian-built cruiser known for its solid offshore performance, practical layout, and timeless styling.

Powered by twin Cummins 450 HP diesel engines with approximately 1,800 hours, she offers reliable propulsion and efficient cruising for extended coastal adventures or weekend getaways.

Recently polished and showing exceptionally well, the vessel presents in clean, well-cared-for condition throughout.

A brand-new upper flybridge enclosure enhances comfort and usability in all weather, creating an ideal extended cruising season.

On deck, the cockpit is spacious and functional, with easy access to the water and excellent flow to the interior. The vessel is well set up for both cruising and entertaining.

Additional features include an inflatable tender mounted on an electric davit system for effortless launching and retrieval, a new Magma BBQ for onboard entertaining, and a full Lohmann winter cover providing excellent seasonal protection and preserving overall condition.

### Highlights & Features

- Twin Cummins 8.3 diesel engines (approx. 1800 hours)
- Recently polished and detailed
- Upper helm: Webasto diesel furnace Onan 9.5kw generator • New upper flybridge enclosure
- Reverse Cycle Heating/AC
- Furuno TZ touch electronics (both helms) Fishing features: Outriggers, bait well in transom, fish box and refer box • Inflatable tender included
- Electric davit system
- New Magma BBQ
- Full Lohmann winter cover
- Spacious cockpit and flybridge layout
- Comfortable, well-appointed interior
- Excellent offshore and coastal capability
- Turn-key and ready for the season

A clean, well-equipped Riviera 40 that has clearly been maintained with care and is ready for immediate enjoyment.

**We help coordinate everything during the purchase, including your pre-purchase survey, mechanical inspection and sea trial through to insurance.**

## Accommodations

This 40' Riviera is laid out with the master stateroom forward with an island queen sized berth and a second guest stateroom with three single berths.

There are storage compartments on the sides of the master cabin, storage drawers under the berth, and hanging lockers to both port and starboard.

The head is accessible from the fwd stateroom or from the companionway and features a Vacuflush toilet with tank watch, vanity with sink, and a generous sized stall shower.

Across the companionway to starboard is the guest stateroom with three single berths (a fixed upper, a fixed lower and a single berth directly across. There is also a large hanging locker and other cabinets.

In the saloon, the mid level galley is to port with under counter refrigerator and freezer, built-in dishwasher, two burner electric cook-top and microwave/convection oven. There is a hatch in the floor that accesses a very large storage area.

The lower helm is to stbd and includes engine controls and instrumentation and Furuno electronic display.

Along the stbd side of the cabin are abundant storage cabinets. A leather covered, "L" shaped settee is on the port side and across the aft bulkhead. The cushions lift to provide access for storage inside the settee. There are Roman blinds for privacy.

The large cockpit has a teak laid floor, side steps and saloon entry step. There are storage cabinets under the coaming all around the cockpit and large storage areas and a fish box under the floor. A sink with hot and cold water is on the forward bulkhead along with a freezer cabinet and a built-in tackle locker. The cabinet under the sink swings open to provide access to the engine room. A transom door leads to the swim step.

The upper helm area has a centerline helm station with a helm chair and companion chair. The helm is equipped with a full compliment of Furuno electronics and TwinDisc electronic engine controls. Forward of the console is an "L" shaped settee and to port is a bench seat. There is a sink with hot and cold water aft of that seat. Additionally there is another small refrigerator for drinks for the captain and crew. The flybridge covered by a hardtop and surrounded with a full canvas enclosure. This area also benefits from heat with the Webasto diesel furnace.
