Tanks

Fuel	218 gallon
Water	30 gallon
Holding	9 gallon

ENGINES

Engines:	2
Engine Total Power:	500 hp

Engine 1

Engine Brand	Cummins
Engine Model	4BTA
Engine Type	Inboard
Engine Fuel Type	diesel
Engine Hours	950
Engine Power	250 horsepower

Engine 2

Engine Brand	Cummins
Engine Model	4BTA
Engine Type	Inboard
Engine Fuel Type	diesel
Engine Hours	950
Engine Power	250 horsepower

2001 Pursuit 3000 Express

Turn-Key Express Cruiser | Fully Updated Mechanical & Electronics Package

This 2001 Pursuit 3000 Express is a highly capable and well-proven offshore cruiser with transferable moorage at Oak Bay Marina. Known for its solid hull design, practical layout, and offshore confidence, this Pursuit has benefitted from significant recent investment in both mechanical systems and onboard equipment.

Powered by twin Cummins 4BTA 250hp turbocharged diesel engines (approx. 950 hours each), the vessel delivers strong performance with excellent fuel efficiency. The engines are a proven platform, offering dependable torque and offshore reliability.

Significant recent mechanical work has been completed, including a port engine rebuild within the last few months, carried out by R&R Marine and subcontracted through Vector Yacht Services. This rebuild followed a raw water pump failure. The starboard engine has been fully serviced and surveyed, with rebuilt injectors installed during the same period of work.

In 2025, both propulsion systems received extensive drivetrain updates including new transmissions, couplers, seals, shafts, and professionally rebuilt propellers, all completed by Vector Yacht Services. Racor fuel filters have been relocated to the aft bulkhead of the engine room for improved accessibility and maintenance efficiency.

Electronics and onboard systems have also been modernized, including all-new Simrad navigation electronics in 2023 and a high-end VHF radio installed in 2025.

The vessel has recently undergone a full exterior polish and wax. Bottom paint has been assessed and remains in good condition for the current season.

The interior presents in very clean, well-maintained condition with tidy upholstery and an enclosed helm for extended-season cruising. All onboard systems are reported to be fully operational, including freshwater, hot water, head system, and both fresh and raw water washdowns. All lighting systems are functional.

Overall, the vessel presents in very good condition for its age and has seen relatively light use given its capabilities.

Highlights & Features

- Twin Cummins 4BTA 250hp turbo diesel engines (~950 hrs each)
- Port engine recently rebuilt (R&R Marine / Vector Yacht Services)
- Starboard engine serviced with rebuilt injectors
- New transmissions, shafts, couplers, seals, and props (2025)
- 2025 Pre-Purchase Survey on File
- All-new Simrad electronics (2023)
- High-end VHF radio installed (2025)
- Recent full polish and wax
- Clean, well-kept interior and helm enclosure
- Fully functional onboard systems
- Excellent offshore performance and economy
- Transferable moorage at Oak Bay Marina

A well-sorted and mechanically refreshed Pursuit 3000 Express that offers strong offshore capability, updated systems, and turn-key usability for its next owner.
