2008 Sea Ray 310 Sundancer

Low Hours | Boathouse Kept | Premium Equipment

If you've been searching for a meticulously maintained cruiser that stands out from the rest, this 2008 Sea Ray 310 Sundancer deserves your attention. Boathouse kept and showing less than 300 hours on the engines, this exceptionally clean example offers the perfect combination of performance, comfort, and thoughtful upgrades.

Designed for weekend cruising, entertaining, and extended stays on the water, the 310 Sundancer is one of Sea Ray's most popular models, offering a spacious cockpit, comfortable accommodations, and legendary build quality.

The helm has been modernized with an impressive upgraded Raymarine electronics package, featuring dual multifunction displays, integrated GPS/chartplotter, radar, and autopilot, giving you confidence whether you're cruising locally or heading out on longer adventures.

A Kohler 5 kW generator, reverse-cycle heating and air conditioning, and a well-appointed cabin make this boat comfortable in every season. The spacious interior features a full galley, convertible dinette, enclosed head with shower, and comfortable sleeping accommodations for family and guests.

The cockpit is equally impressive with abundant seating for entertaining and a Kenyon electric grill, making it easy to enjoy meals while at anchor or in the marina.

Included is an AB inflatable dinghy mounted on a convenient SeaWise davit system, powered by a 6 HP Yamaha outboard, making launching and retrieving the tender quick and effortless.

Powered by twin MerCruiser 5.0L MPI engines, this vessel shows only 284 hours on the port engine and 295 hours on the starboard, reflecting its very light use and careful stewardship.

Having spent the last 10 years protected in a boathouse, the vessel has benefited from exceptional cosmetic preservation, with the gelcoat, upholstery, and finishes reflecting the care of conscientious ownership.

Even better, the North Saanich Marina boathouse is available to the purchaser (subject to marina approval), providing a rare opportunity to continue protecting your investment in one of the area's most desirable marina locations.

July 2026: Bottom cleaned and zincs replaced

Highlights
