- Twin 30 amp Shore Power Inlets with 1 - 50' power cord

The flagship of the Cutwater fleet of fast, efficient family cruisers brings onboard livability, luxury and convenience to a whole new level... and adds more than a few unexpected innovations. With its generous 10-foot beam, the hull provides plenty of volume for stretch-out comfort on deck and below, and our trademark Stepped Keel hull design places the engine lower than conventional hull forms allow, to ensure exceptional stability, as well as extra headroom in all living spaces.

The aft cockpit features an ingenious convertible seating arrangement, including side bench seats that fold outward from each hullside to accommodate four adults without taking up cockpit space; another double seat, built into the transom, may be adjusted to face forward or aft.

Another great feature of the Cutwater 30 is an opening panel in the cabin bulkhead that allows the aft dinette seat to be reversed in order to accommodate two more guests in an enjoyable setting that's ideal for al fresco socializing. On the foredeck, two flush hatches open to reveal a pair of cushioned observation seats, each with a footwell that doubles as fender storage. For swimmers and beachcombers, the bow platform features a telescoping five-step ladder that extends to allow easy access to and from the beach or the water.

An expanse of opening windows brightens the roomy main-deck salon. Here, a four-place dinette converts to a double berth, and features a beautifully finished custom maple pedestal table with integral beverage holders and grab rail. A European-style galley counter with under-counter fridge spans the full length of the salon's port side, and opens for access to a double stainless-steel sink and electric cooktop. Just opposite is the fully instrumented helm station featuring a handsome double-stitched ultraleather console and double-wide helm seat. Beneath the raised dinette is a private guest cabin with gear storage, reading lamp, two hullside portlights and a 6' 8" double berth.

With its efficient Volvo diesel inboard, the Cutwater 30 cruises effortlessly and comfortably, delivering express service to even remote destinations; standard bow and stern thrusters ensure precise maneuvering and easy docking. For its performance, economy and comfort, no other cruiser can offer this kind of value.
