2008 Fathom Yachts 40 Expedition Flybridge
\$ 529,000 CAD

40 ft

**VAN ISLE
MARINA**

Dimensions

LOA	40.33 ft
Beam	14.5 ft
Maximum Draft	3.5 ft
Dry Weight	24,000 lb
Bridge Clearance	15.75 ft
Hull	Fiberglass

Accommodations

Heads	1
Cabins	2

Tanks

Fuel	400 gallon
Water	135 gallon
Holding	45 gallon

ENGINES

Engines:	1
Engine Total Power:	425 hp

Engine 1

Engine Brand	Cummins
Year Build	2008
Engine Model	5.9B QSB425 Common Rail
Engine Type	Inboard
Engine Fuel Type	diesel
Engine Hours	1812
Drive Type	Direct
Engine Power	425 horsepower

"Island Time" is one of Fathom's sought after "Expedition" series (Premium Edition) upgraded with the optional flybridge and every factory option including premium interior finishings such as granite counter surfaces, diesel furnace, Force 10 propane stove and oven, just to name a few of the desirable Pacific Northwest features. Plus a complete Garmin navigation system with radar/chartplotter/AIS/depth sounder/autopilot, wind anemometer and three closed circuit cameras (port side view, aft view & engine room). Steelhead WD600 hydraulic crane on boat deck with AB yacht tender with Yamaha 20hp outboard w/electric start/power tilt and several other recent premium upgrades.

Espar hydronic diesel furnace system

Spectra MKII Newport 400gpd watermaker

Magnum MS2012 2000 watt inverter/charger

Meticulously crafted with a luxurious experience in mind, Fathom brings comfort to your boating life , inside and out. Designed by the skilled naval architect Greg Marshall and built in America, the Fathom 40 is a handsome and spacious Motoryacht built for those who covet style with speed and fuel efficiency.

Fathom Yachts are fast expedition yachts with incredible quality, performance, efficiency and accommodations. Built with composite materials and advanced environmentally friendly infusion processes, Fathom Yachts' performance, comfort and value stands out.

Fathom utilizes modern CAD, engineering, tooling, and manufacturing techniques that allow unmatched quality, performance, and fuel efficiency. Weight-saving composite materials, a propeller tunnel, and an efficient hull design allow the Fathom 40 to burn significantly less fuel while cruising comfortably from displacement speeds to the high teens with a single electronic diesel. The Fathom 40's wide beam provides stability and enormous interior space. Two comfortable staterooms, an ensuite head with enclosed shower stall, and spacious salon rival the features of a much larger yacht. The raised pilothouse is distinguished by commanding views from its comfortable helm chair and settee for five. A unique folding transom lowers to expand the aft deck for access and adventure.

Steering System

Joystick Control

Mechanical

The engine room features access from the aft deck and space around the engine for easy maintenance. Fathom is powered by a clean burning full authority common rail diesel. Tankage for 400 gallons of fuel are located outboard of the main and are on the center of buoyancy so the trim of the boat will not vary with different amounts of fuel onboard. The bright white acoustic barrier insulation far exceeds the industry norm for keeping the Fathom 40 quiet. The sole of the engine room is molded fiberglass and is easy to keep clean. The quality of the Fathom 40 is apparent throughout the boat and particularly in the engine room. Mechanical and electrical systems rival any yacht on the market. All equipment is chosen for its longevity and quality. The location of various systems and components is carefully planned to provide easy maintenance. Fathom Yachts are designed to exceed ABYC and CE construction guidelines. Safety at sea is paramount and Fathom makes no compromises. Advanced engineering and manufacturing combined with American quality elevate the Fathom 40 to a new level of sophistication.

Performance

The Fathom 40 is designed to provide performance without requiring twin engines or large amounts of horsepower. The single 425 hp common rail diesel allows owners to run at displacement speeds or cruise in the teens. An advanced hull design with a propeller tunnel results in greater efficiency, less draft and less fuel consumed. The Fathom 40 has the performance of a twin-engine boat with the efficiencies and practicality of a single engine. The hull is broad, yet has a narrow bow to cut through the waves. The Fathom 40 is designed to provide a stable, dry, and comfortable ride. The large airfoil shaped rudder and standard

bow and stern thrusters

make the 40 easier to operate than a twin screw boat. The Fathom 40 embodies the perfect balance of many factors and its introduction is timely in a world of high fuel costs. Get aboard the new Fathom 40, a fast expedition yacht providing comfort, performance, efficiency, quality, and style.
