The Selene 53 is one of the most successful yachts of the Selene Ocean Trawler line. It's a displacement yacht meant for long-range cruising, big for her length and beamy. Her shape below the waterline and single engine is fuel efficient. The big slow-turning prop responds instantly to increases in throttle. Soft chines forward sharpen to hard chines near amidships, and from there to the transom, the run stays flat, much like that of a ship. It sweeps up to let solid water flow to the prop and rudder. A keel of barely discernible drag becoming deeper aft than forward provides directional stability, helps damp roll and protects the prop and rudder during grounding. The Selene 53 has its master stateroom amidships, the area of least pitching, a general design principle for a cruising yacht.

Explore the seas with comfort and style aboard this meticulously maintained 2008 Selene 53 Ocean Trawler. Designed for extended cruising, this yacht combines classic elegance with modern amenities, offering a luxurious experience for extended stays on the water. This Selene 53 has been professionally maintained and is in excellent condition. Perfect for both long-range cruising and entertaining guests, it offers a blend of luxury, performance, and seaworthiness. Whether you're planning a coastal journey or exploring remote islands, this yacht ensures a memorable experience on the water.

**Scheduled upcoming maintenance July 2024:** • Haul out and bottom clean• Detail, polish and wax• Zinc replacement• Battery replacement
