Manufacturer Provided Description

The Sport 560 is a perfect boat for day use or to explore into your next adventure. The heavy duty 24 degree deadrise hull combined with a 115hp rating and built-in under deck 28 gallon fuel tank, provides a smooth ride to your closest beach or gets you home safe when conditions get rough. In rough conditions there is more than one driving position due to the flip up standing bolster. The upright console with tall tinted windscreen and grab rail accommodates a 9" chart plotter for navigation to get you safely home. There is a wide bow boarding step with roller and cleat for easy anchoring and while at anchor, lots of room to hang out in the wide comfortable bow seating area. The bow area can be converted easily to a lounging sun deck and in the stern there is another seating area with folding table and cup holders for lunch. For watersports there is an optional removable ski pole or towing arch and a huge and flat rear transom area with telescopic boarding ladder. All surfaces have comfortable teak pattern EVA so soft on the feet and won't get hot. There are four dry storage compartments including an extra deep rear seat area, and all include hydraulic pistons to hold up lids for easy stowing. Rated for 12 persons and 115hp, and incorporating a built in fuel system, the New Sport 560 has everything you need for a great day on the water.
