Transferable Moorage Available at Van Isle Marina

2023 Highfield UL290 tender with Weaver Davits / Yamaha 4hp Motor

The Ranger Tugs R-29 Command Bridge delivers exceptional comfort, performance, and ease of handling for cruising enthusiasts.

Description The command bridge features seating for four and a full suite of electronic controls including VHF, bow & stern thruster controls, Volvo engine controls, spotlight remote, lighted compass, and optional Garmin autopilot and Navigation system. Access to the bridge by climbing the teak steps in the aft cockpit area. On the bridge you'll also find convenient grab rails for safety, 12v power, cupholders, and weatherproof speakers.

The more modern styling R-29 CB feature a curved front window and an overhead glass atrium that provides exceptional visibility from the helm station and salon area. An ingenious aft cockpit seating arrangement includes a reversible seat, port and starboard jump seats and a teak table for outside dining. The opening cabin bulkhead with reversible seat also provides additional cockpit seating while bringing the outside-in.

The Ranger Tugs R-29 CB can accommodate up to six adults on three separate berths, including the forward island berth with en-suite head. The R-29 is powered by a fuel efficient 300 HP Volvo Inboard Diesel engine that is located completely outside of the cabin for quiet cruising. Stern and bow thrusters make docking exceptionally easy.
