Please contact us to arrange your appointment to view this exceptional Tiara 4200 Open.

### **MANUFACTURER PROVIDED DESCRIPTION**

With plenty of room for friends, family, and gear, the Tiara 4200 Open offers room to spare, allowing any Tiara owner to travel in style. An upper cockpit wetbar with sink, cutting board, refrigerator, and insulated cooler aft mean that the sportsman and cruiser alike will have enough room for preparation and storage of bait, fish and food. An automatic rope / chain anchor windlass system with operation from foredeck foot pedal and remote switch at the helm, ensures that in high or low seas, the captain will remain in control. Four 10-inch spring line cleats and two 6-inch fender cleats mean the 4200 can be tied up safely and securely. The 4200 Open features a hull and deck constructed with a gelcoat outer layer, hand-laid fiberglass and balsa core (deck and hullsides) with a special blended premium resin. The custom composite windshield frame, with tempered safety glass, offers safety handrails, power opening center section, and three washer / wipers. Tiara's custom 12V DC and 120V / 240V AC electrical system, 50 amp battery charger, and a 12V DC 2-bank battery system with gel cell batteries, ensures heavy-duty power. Power, performance and safety are important to any Tiara owner and the 4200 engine platform is no exception. The 4200 Open will run on either the CAT C12 engine platform, equipped with the CAT MPD engine display or the Cummins diesel engine platform, equipped with the Cummins C-Cruise engine display.
