Engine Model: D6-435hp IPS600
Engine Type: Inboard
Engine Fuel Type: Diesel
Location: Port
Drive Type: Pod Drive

EXCEPTIONAL RIVIERA 53 ENCLOSED BRIDGE - PRICE REDUCED!!

METICULOUSLY MAINTAINED AND CARED FOR SINCE NEW!

The Riviera 53 Enclosed Flybridge is a vessel of considerable internal volume, allowing Riviera's designers to create unprecedented living spaces, elegant amenities and unrivalled performance.

The vessel's lines on the water are both powerful and noble, with a strong sheer forward and raised topsides, create as much freeboard as a much larger vessel.

The Riviera 53 features hull lines that run straight aft from maximum beam, creating a powerful lift and planing surface along with great stability.

Moulded window casings create style and function, bringing 360 degrees of light into the interior and offering water views from every saloon seating position.

Luxury accommodations below deck of a much larger yacht featuring a 3 stateroom, 2 head layout with a full beam, king-size master stateroom.

Seascope II has been carefully equipped and outfitted for extended cruising in the Pacific Northwest (More than \$200,000 in custom equipment added to vessel during original commissioning of vessel).

Some key factory & dealer upgrades include:

Triple Volvo Penta D6-435hp IPS pod drives (590 hours)

Two additional joystick docking stations (starboard aft bridge & port forward cockpit deck)

Volvo Penta DPS (Dynamic Positioning System)

Factory upgraded 4000W inverter from standard 2000W (upgraded house/inverter battery bank May, 2020)

All new AGM engines and genset start batteries new in November, 2019

ONAN 21.5kw genset with sound shield and underwater exhaust (387 hours)

Espar diesel-fired hydronic furnace system throughout all three levels of vessel

Filtrations Concepts reverse osmosis 1200 gallon per day water maker with programmable auto back flush

Full complement of Furuno navigation system, Furuno NavNet TZT14 TZtouch multifunction displays x 3, open-array radar, autopilot, depth sounder with 1Kw transducer, weather GPS, AIS, 2 - closed circuit cameras

KVH TracVision M5 satellite tv system

Factory optioned teak cockpit with custom transom bench upholstered in upgraded Macromarine to match forward cockpit mezzanine bench seating. Custom high gloss varnished teak cockpit table mounted in front of transom bench on high-polished stainless steel, electric hi/lo pedestal. (same custom electric hi/lo pedestal mounted to interior salon

table)

Freedom Lift hydraulic tender cradle with remote control mounted to transom for easy deployment & retrieval of 12' Rigid Sport center console tender with Yamaha 40hp four stroke outboard

Upgraded Quikline Ultra 77lb polished stainless steel anchor with 330' chain

Aqualuma LED underwater transom lights

Freedom Lift hydraulic tender cradle system

12' Rigid Boats center console yacht tender with Yamaha 40hp four stroke (engine service completed November 2019)

The extensive list of custom options & upgrades goes on.

Full service & maintenance completed in the Fall of 2019

ACCOMMODATIONS

The Riviera design team has brought light and fresh air from the huge cockpit into the main salon living space, through a sliding glass door and a hinged awning window.

Stepping aboard from the cockpit, to starboard is a C-Zone Touch Screen. The screen offers full control of circuits as well as the ability to view important on board systems information such as tank levels and power levels (for both AC and DC supplies), and also provide audible and visual alarms with systems diagnostics.

The U-shaped galley is to port and features large aft and side windows for an expansive, open feeling.

Forward of the galley is the salon with a C-shape dinette to port, facing a C-shaped settee on the starboard side. This is a spacious social setting for up to 10 in sheer cruising comfort. The settees are plush and luxurious, with a generous depth of padding and leather upholstery. Window coverings feature Roman Blinds. A wide screen 42" TV on electric lift rises from the dash forward on the port side bringing Bose Stereo System entertainment to the entire living area.

Stepping down from the salon are 3 staterooms and 2 heads with showers. Laundry is conveniently located in the companionway with a premium brand washer and dryer.

A Guest cabin is to port and features twin upper/lower bunks with a huge cedar-lined locker, a large additional storage compartment under the lower bunk that hinges up with hydraulic lift supports, chest of drawers and built-in bureau.

Forward, you enter the VIP Stateroom which features full headroom, an island queen size bed with overhead hatch for light and ventilation, wraparound high gloss timber cabinetry and soft upholstered fabric panel details, creating a very warm and inviting space. This cabin's considerable floor space enhances a very spacious cabin with a bureau fitted with a mirror. Includes private access to the Guest head with shower.

The full beam Master Stateroom features a headliner detail of lighting, fabric and timber above the king size bed and soft fabric upholstered bed head. Large fixed and opening port holes bring light and fresh air into the master suite with an optional Open Portlight alarm sounding at the helm. A double seater lounge to starboard and dresser bureau to port add to the sense of total, private luxury. A flush mounted 40" LED TV mounted in the forward bulkhead, complete with home theatre surround system is standard. Its own separate ensuite has non-slip floor, vanity unit mounted w/porcelain feature sink, shower stall w/teak seat, vacu-flush toilet and Grohe fittings. Positioned amid ships forward of the main engineering space, this stateroom is extremely quiet.

The Enclosed Flybridge is reached from the starboard stairs in the salon and is an additional living/entertainment space. The helm is forward for long-distance cruising with skipper and mate seated on twin swivel pedestal chairs for maximum visibility. To starboard of the helm is a leather settee allowing guests easy conversation with the skipper and full forward viewing while cruising. Aft of the helm is a dinette table with a leather upholstered C-shape settee which seats six comfortably. A wet bar with drawer fridge and sink serves to refresh while underway or entertaining while in port. Prepared food is easily brought up to the flybridge from the galley below via the internal staircase. At rest or underway, the staircase can be secured for privacy or as a safety precaution via a folding, lockable hatch that disappears when open into varnished cabinetry. The roof of the flybridge boasts a sliding electric sun roof creating a sky-lounge, typical of much larger vessels. Side-opening windows and surround visibility will add to the light, airy atmosphere.

GALLEY

The Riviera 53 offers the latest in European appliances showcased in high gloss timber and solid surface counter top.
